

Technical Sheet

Series of suspension lamps. The Taiki lamps can be used both in interior and in exterior environments.

Cover: made by sewing a one or two-colours Rope cord in a spiral-like pattern. An additional internal shade, made of a semitransparent polyester cord, enhance the lamp brightness.

Lighting body: LED.

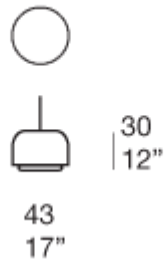

Notes: Taiki is supplied with the suspension cable, the alimentation cable and the ceiling cap. The power LED driver is not supplied.

The lamp is LED powered but offers the same warmth and harmony of a traditional lighting bulb.
